

## TECHNICAL MEETING

The Royal Danish Collection will host the first of two technical meetings held respectively in fall 2020 and spring 2021. The main topic of both meetings is the preservation of wall hangings.

On the first meeting, held at Rosenborg Castle in Copenhagen, we will focus on the conservation and restoration of silk wall hangings in historic interiors.

Potential discussion topics are:

- Case studies
- Technical analysis
- Ethics in conservation and restoration
- Storing and exhibition
- Historical aspects of wall hangings

A more detailed invitation and call for papers will follow in March 2020.

The next meeting, hosted by Historic Royal Palaces, UK in spring 2021 at Hampton Court Palace, will focus on historic tapestries.
